WORK EXPERIENCE

2022 – Present   **Trainee Web Developer at Thomson Reuters**
                             I am currently working on Html, Css and Javascript for past 10months.

PROJECTS UNDERTAKEN

1. **TRANSPORT RECORD MANAGEMENT SYSTEM:** Implemented a system in which user can get the place details, price and food. My role was to create user and admin module pages in DBMS project using php, html, CSS and MySQL.

2. **BUS RESERVATION SYSTEM:** Implemented a system in which user can perform various bus activities like book the seats, editing details, view the details, modify the details, delete, edit using C++.

3. **COFFEE CLUB:** Coffee Club is the project on web development that maintains the order of customer and deliver the orders to customer, developed using HTML, CSS, python and MYPHPADMIN.

4. **A PRACTICAL DESIGN FOR DATA HIDING IN DIGITAL VIDEO FILES:** It is designed and developed platform for data hiding in digital video files. The sender will be able to hide the information and would be able to extract the information with minimal loss using MATLAB.

INTERNSHIP, WORKSHOP AND CERTIFICATION

- Internship at "**VISIONEST**". It was an online training for 40 hours which briefs about webhosting and development.

- Internship about Coffee Shop Management System. **Coffee Shop Management System** is based on a concept to maintain orders and **management** of a particular **coffee shop**. **Coffee Shop Management System** is a Web-based application developed using HTML, CSS, python and MYPHPADMIN.

- Participated in webinar on "Data Science and Machine Learning" using Python held at YIT, Moodbidri.
